About us

Velosi, as a globally recognized training provider offers a comprehensive range of specialized courses in Certified Technical Training, Exam Preparatory, HSE, Training in Oil and Gas Field, ISO, NEBOSH, IOSH, Mobius, CertNexus, Food Safety Courses, Digital Transformation Courses, Administrative and Business-Related Skills. We strive to share our practical knowledge and skills with our delegates to help them implement industry best safety practices. This ensures that Velosi is confident in its ability to deliver world-class training around the world.

Our latest learning tool and technology extensively thrives in assisting our delegates to sharpen their knowledge and support them for the next phase of their careers, whether as a professional or as owners of their businesses. A suite of broad-scoped online training courses is designed to meet the evolving training needs of today's professionals, delivered right through the convenience of learning, and led by subject matter experts with substantial experience in providing online professional development and innovative learning approaches. Velosi courses can be deployed virtually through online collaboration, including hands-on technical training, course materials, interactive labs, and troubleshooting exercises.

At Velosi, our most valuable asset is our experienced trainers, who are specialists in their fields and can customize the curriculum to the unique needs of our clients. Our training and education service has various international accreditations, recognitions, and associations to meet worldwide standards and increase the skills and knowledge of our participants globally.

Vision

To establish a global leadership position in technical & business-related training services. We are committed to providing world-class professional services to individuals & businesses in order to increase workplace productivity.

Mission

To help our clients develop and enhance their professional careers by providing high-quality & efficient training based on industry best practices and standards.

Accreditation and CPD

Velosi has been approved and certified to provide training services to prospective learners in a variety of fields, including oil and gas technical training, health and safety, asset integrity management, ISO, and a variety of administrative skills.

Information Technology	Agriculture	Schools & Education	Infrastructure	Others

Our Strengths

- Excellent Result Ratio
- Industry Experts
- Worldwide Experience
- Partnering with The World's Top Companies
- Building Long Term Client Relations
- Global Reach, Local Service

Why Choose Us?

At Velosi, we truly believe in assisting and going beyond to guarantee our clients get the value for what they have paid for.

- Highly professional trainers and good working relationship with clients.
- In-Depth comprehensive explanation of all sections.
- Adaptable to your course schedule.
- Accessible from anywhere, at any time, on any device of your choice.
- Continuous assessment with section-wise practice tests.
- Study material in the form of PPT and group discussions are written in a very understandable manner.
- Ability to learn at your own convenience with access to live recordings.
- Incorporate case studies from real-world situations.
- Exposure to real-life technical examples through expert certified trainers.
- Student's online chat group enables them to clear their doubts after the training.
- Trainees are eligible to earn Continuing Professional Development (CPD) credits.
- Affordable training packages with seasonable discounts.

Training Categories

From our Certified Technical training to business related courses, our training categories let you quickly select your chosen course and ensure you remain at the forefront of developments throughout various industries

Our training program is divided into the following categories:

1. Certified Technical Training
2. Exam Preparatory Training
3. HSE Training
4. Training in Oil and Gas Field
5. ISO Trainings
6. NEBOSH
7. IOSH
8. Food Safety Training
9. Mobius Training
10. CertNexus Training
11. Administrative and Business-Related Training
12. Digital Transformation Courses

GET READY TO ADVANCE YOUR CAREER!

Velosi Certified Programs

At Velosi we have our specialists and trainers for each course that is specifically focused on a research-identified goal. Our trainers also have hands-on experience or knowledge of each course that they can share with the delegates. Which can then be applied to their professional development. Upon successful completion of each course, candidates will receive a certificate of completion that will be certified by Velosi.

1. Certified Fire Protection Professional
2. Certified PHA HAZOP Leader
3. Certified Process Design Professional/Expert
4. Certified QRA Professional
5. Certified Reliability Professional
6. Certified SIL Professional/Expert
7. Certified Asset Integrity Professional/Expert
8. Certified Tableau Data Analyst
9. Certified Environment Impact Assessment Professional
10. Certified NDT Level I and II

Exam Preparation Training

We offer comprehensive exam preparatory training sessions that enable participants to gain the knowledge they need to pass a specific Examination Certification. Throughout the training and even after the courses are completed, each applicant will receive real sample exam questions and answers and continual assessment.

1. BCSP Associate Safety Professional (ASP)/ Certified Safety Professional (CSP)
2. NFPA Certified Fire Protection Specialist (CFPS)
3. Exida Certified Functional Safety Professional/Expert (CFSP/CFSE)
4. ABIH Certified Industrial Hygienist (CIH)
5. SMRP Certified Maintenance and Reliability Professional (CMRP)
6. PMI Project Management Professional (PMP)
7. American Petroleum Institute (API) Training
   - API 510
   - API 579
   - API 581
   - API RP 2SIM
   - API 571
   - API 580
   - API 653
8. Six Sigma Green Belt
9. ASNT NDT Level III

Health, Safety & Environment (HSE) Training

Instructors from Velosi who specialize in health, safety, and environmental protection training help delegates gain more knowledge and skills, reduce risk, create healthier and safer workplaces for everyone, and improve long-term organizational success. We guarantee that participants will be well-equipped to pursue their professional progress after completing the training course.

1. Accident Investigation Training
2. Chemical Safety Training
3. Work at Heights Safety Training
4. Confined Space Training
5. First Aid Course - Basic Awareness
6. Advanced First Aider Course
7. Flagman Training Course
8. H2S Safety Training
9. Hot Work Safety Awareness
10. Radiography & Radiation Safety Training
11. Rigging and Slinging Training
12. Scaffold Inspection Training
13. Emergency Response Planning: Crisis Management for Hazardous Environments
14. Safety Instrumented Systems (SIS) Management
15. Process Control & Safeguarding
16. Risk, Crisis & Disaster Management
17. Enhancing HSSE Safety Performance & Effectiveness
18. Control Hazard & Operability Analysis
19. Quantitative Risk Assessment
20. Hazard and Operability (HAZOP)
21. Fire Safety Procedures for the Workplace
22. Basic Fire Safety Awareness Training
23. Fire Risk Assessment Training
24. Fire Warden Training
25. Fire Watchman Training
26. Environmental Awareness
27. Waste Management-Production Waste
28. H.S.E (Management System) Awareness
29. H.S.E (Management System) Workshop
30. Contractor Safety (Management)
31. Emergency Response (Corporate Procedures)
32. Isolation Confirmation Awareness
33. Lockout/Tagout
34. HSE Performance Measure
35. Occupational Health
36. Planned Inspection and Audits
37. Permit to Work (Awareness/Understanding)
38. Permit to Work (Issuing/Area Authority)
39. Permit to Work (Job Performance)

40. Risk Assessment General Awareness
41. Risk Assessment Working Knowledge
42. Off the Job Safety
43. Safe Driving Awareness
44. Defensive Driving Training
45. Bow-Tie Risk Management
46. IEMA Certification
47. Air Dispersion Modelling
48. GIS Application Training
49. Dropped Object Study
50. Hazardous Area Classification
51. Fire & Gas Mapping
52. Authorized Gas Tester Training

Training In Oil & Gas Field

At Velosi, from accident investigation to fire protection engineering, we've got you covered. Our extensive training courses target the oil and gas industry's problems and possibilities. Additionally, ensure that you remain current with advancements at all times.

1. Asset Integrity Management in Oil and Gas Industry
2. Pipeline Integrity Management
3. Wellhead Integrity Management
4. Structural Integrity Management
5. Process Engineering - AutoCAD
6. Fitness for Service (FFS)
7. Pressure Vessel, Shell and Tube Heat Exchanger Design
8. Boiler/Static Equipment Design
9. Oil and Gas Essentials
10. Corrosion Control in Gas, Oil & Water
11. RBI Training for Static Equipment & Pipes
12. RBI Training for Pipeline (Onshore Offshore)
13. RBI Training for Offshore structures
14. Failure Mode Effect and Criticality Analysis (FMECA)
15. Root Cause Analysis (RCA)
16. Reliability Availability Maintainability (RAM)
17. Reliability Centered Maintenance (RCM)
18. Vibration Analysis
19. Safety Integrity Level (SIL)
20. Hull Integrity Management
21. DCVG & CIP Surveys
22. Pressure Safety Valve (PSV) Integrity
23. Fire Protection Engineering
24. Layer of Protection Analysis (LOPA)

ISO Training

At Velosi, we believe that for an organization to adapt to quality management system processes, it should have an individual with the greatest capacity for implementing global marketing stan- dards, enabling the company to grow without compromising employee and customer safety. We provide extensive trainings that not only give participants in-depth information but also an understanding of ISO standards, equipping them with the knowledge and skills necessary to achieve sustainable quality. Velosi ensures allocating your training budget to what matters, learning – will allow you to stretch your knowledge even further.

1. ISO 9001 – Quality Management Systems
2. ISO 14001 – Environment Management System
3. OHSAS 18001 – Occupational Health & Safety Management Systems
4. ISO 45001 – Occupational Health & Safety Management Systems
5. ISO 50001 – Energy Management System
6. ISO 55001 – Asset Management Systems
7. ISO 22000 - Food Safety Management Systems
8. ISO 17025 - Testing and Calibration Laboratories
9. ISO 22301 - Business Continuity Management Systems.

NEBOSH Training

We provide NEBOSH (National Examination Board for Occupational Safety and Health) courses that are focused on the practical application of workplace health and safety management standards and procedures. Employees at any level and in any industry may benefit from our highly experienced teachers and competent instructors who have personal knowledge or expertise regarding NEBOSH Courses.

Qualifications are also available in a variety of categories, including the following:

- NEBOSH's Certificate-level qualifications give a solid foundation in health and safety for managers, supervisors, and those just commencing out in a career in health and safety, among other things.

    1. International General (IGC)
    2. Leadership Excellence
    3. Process Safety Management
    4. Construction Health and Safety
    5. Fire Safety and Risk Management
    6. Oil & Gas Operational Safety

- NEBOSH's Award-level qualifications provide a basic knowledge of health and safety concepts and practices. These qualifications are also an excellent gateway to further NEBOSH certificates.

    1. Introduction to Incident Investigation
    2. Health & Safety at Work
    3. Working with Wellbeing
    4. Process Industries
    5. Safety Simplified

- NEBOSH Diplomas are professional credentials for those working in the fields of health, safety, and the environment.

IOSH Training

This certification from the Institution of Occupational Safety and Health (IOSH) allows managers and safety leaders to successfully manage health and safety in their workplace. At Velosi, our courses include an excellent balance of new understanding and hands-on experience which are delivered by highly qualified instructors, are suitable for individuals working in a wide range of sectors and occupations.

1. Managing Safely
