COMPLETE SOLUTIONS FOR A WIDE RANGE OF INDUSTRIAL APPLICATIONS

SUPERIOR UPTIME PERFORMANCE

Donaldson filters work hard to remove harmful contaminants from your equipment. They enhance equipment life and performance while protecting the environment. You have confidence that you are using a brand name the OEMs trust. For over 100 years, Donaldson has supplied OEM filtration technology for wide range of industry. You get quality and value in aftermarket replacement filters with more uptime.

Air Filtration

- PowerCore® air cleaners are easily adaptable to a scavenge air system for higher pre-cleaner efficiency.
- Standard and extended life filter options are available for nearly all Donaldson air cleaners - both axial and RadialSeal™ filters!
- Extend air filter life with long life filters, pre-cleaners, scavenged / pre-cleaners systems, filter service indicators, Dust Dumpa tube extensions and kits that convert older SRG housings to Donaldson RadialSeal™ filters.
- High efficiency Donaldson Endurance™ filters offer improved engine protection for work trucks.

Lube Filtration

- Donaldson lube filters keep engine oil clean by capturing contaminants that can cause engine damage.
- With coverage for a full range of popular engines, Donaldson lube filters meet or exceed application requirements.
- Donaldson Endurance™ lube filters – with Synteq™ media – deliver improved lubricant flow, improved cold start performance and a higher level of engine protection to prolong engine and equipment life.

Hydraulic and Transmission Filtration

- Offering a broad line of spin-on, cartridge-style and in-tank hydraulic filters – including high, medium and low pressure options – that protect transmissions, machinery & components in hundreds of applications.
- A complete line of hydraulic accessories to accommodate virtually any mobile application.
- Donaldson Duramax® filters are the highest rated medium pressure filters available.
- T.R.A.P.™ breather technology

HIGH PERFORMANCE FILTRATION

The best preventive maintenance for hardworking equipment in different range of industry. Downtime means lost revenue. To keep your equipment in service you need filters that deliver superior performance – and a reliable supplier that offers complete coverage for your entire fleet. With Donaldson protection, your engines and equipment will operate longer between filter replacements, saving on costly downtime and repairs. And adding a Donaldson filtration system to your bulk fuel and lube storage will go even further toward protecting your equipment and maximizing uptime.

Fuel Filtration

- Expanded line of fuel filters protect engine components and extend equipment life.
- Includes a full complement of filters to fit Stanadyne® and Racor® fuel systems, and Cummins® engines.
- Twist&Drain™ valves turn the complicated task of removing water into an easy process.

Coolant Filtration

- Donaldson coolant filters remove contaminants and maintain cooling system balance – keeping today's hot-running engines cool and reducing downtime.
- Donaldson Endurance™ coolant filters allow you to extend filter life while maintaining coolant condition.

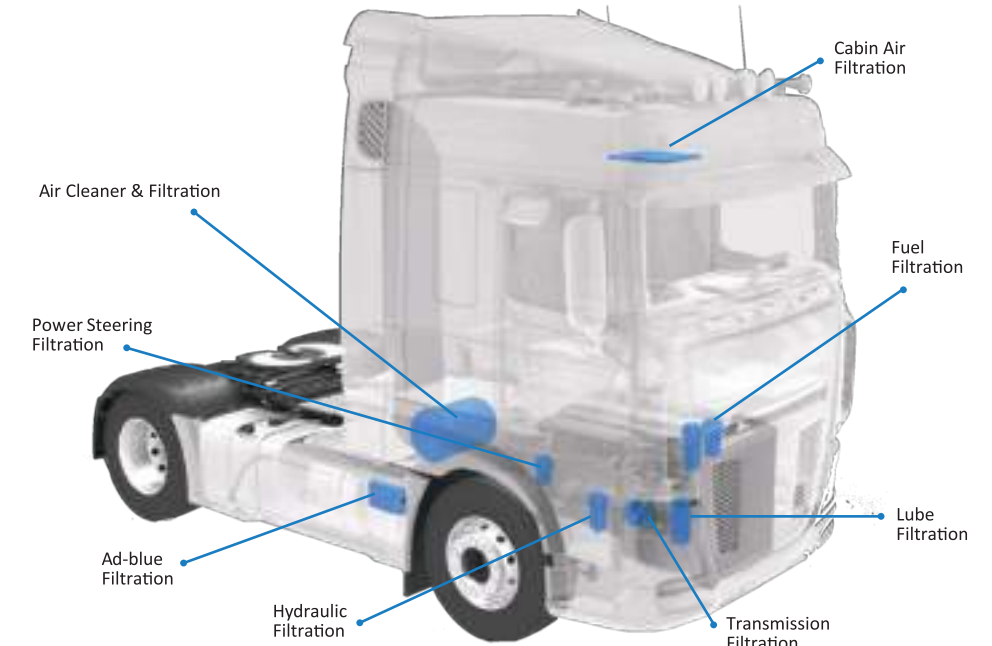

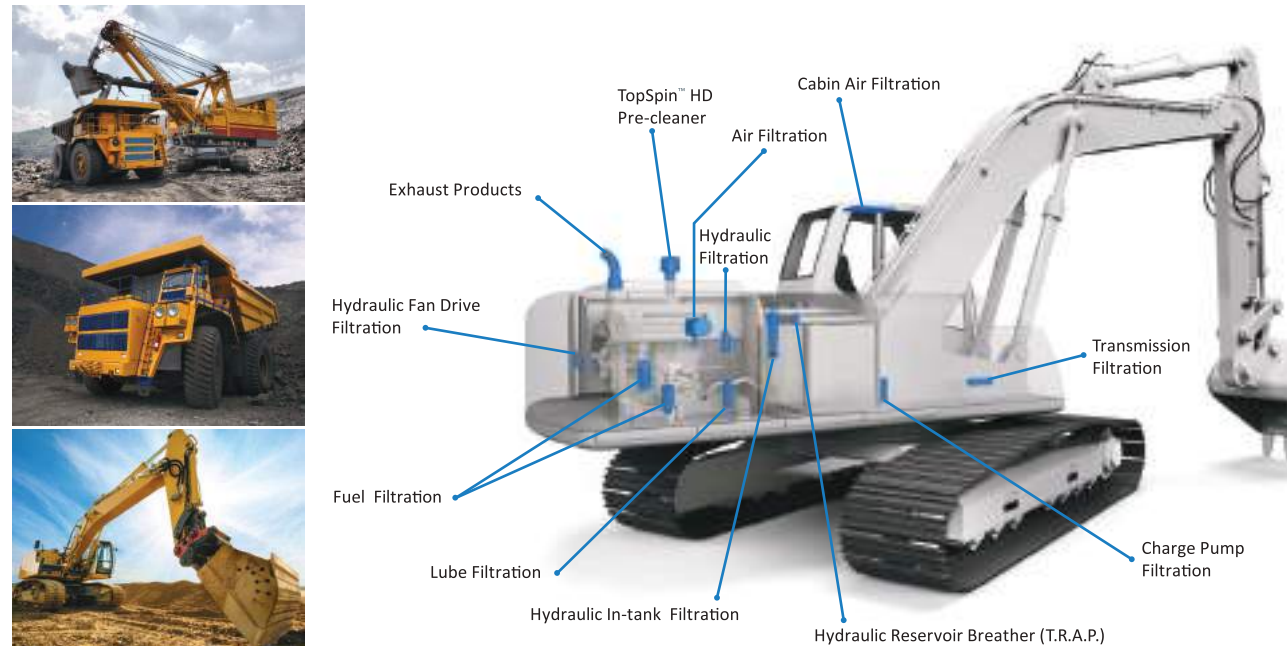

Mufflers & Exhaust Accessories

- **Clamps and accessories** Reduce exhaust leaks and noise with our full line of exhaust clamps.
- **Mufflers** A complete line for medium and heavy-duty diesel powered equipment.

ROLMAN WORLD
& DONALDSON

Quarrying, Mining and Construction

Maximize uptime across your entire operation. Donaldson deliver the most complete line of filters for quarrying, mining and construction industry.

- **Bulk Fluid Storage**
Contaminants and water are the enemies of modern diesel engines, we'll help you remove the dirt and achieve more.
 - Filter Kits & Carts
 - Filters, Heads & Manifolds
 - Tank Accessories
 - Service Accessories
 - Remote Filter Monitoring
- **Engine & Vehicle**
Full filtration coverage and superior protection across a wide range of equipment.
 - Cabin Air Filtration
 - Fuel Filtration
 - Transmission Filtration
 - Lube Filtration
 - Hydraulic Filtration
 - Air Filtration
 - Exhaust Products
 - Coolant Filtration
- **Compressor**
A complete system of filtration and separation products to help your compressor operate more reliably and efficiently.
 - Inlet Air Filter
 - Lube Filter
 - Air-Oil Separator
- **Hydraulics**
Contamination control products and services for machinery and components in factory and on heavy-duty equipment.
 - Replacement Filters
 - Fluid Analysis
 - Assemblies
 - Off-Line Filtration
 - Accessories
- **Industrial Dust, Fume & Mist**
From cleaner air for industrial working environments to collecting a variety of dust fumes and mist.
 - Dust Collectors
 - Replacement Filters
 - Mist Collectors
- **Membranes**
Donaldson is the leading world wide manufacturer of Tetratex® microporous expanded PTFE membranes, films and laminates.

Material Handling

Bringing filter performance to new heights. Donaldson delivers quality air, fuel, oil and hydraulic filters that provide maximum protection and productivity.

- **Air Intake** - On-road or off, you can trust Donaldson air filters to withstand whatever the environment throws their way.
 - Air Cleaners
 - Donaldson Filters
 - Fleetguard® Optiair™ Air Cleaners
- **Bulk Fluids** - Remove the dirt from fuel and lubricants – achieve more
 - Diesel and Lube Filters
 - Diesel Kits
- **Fuel** - Fuel filtration products that protect your injectors, pumps and engines. It's simply a better way to filter fuel.
 - Cummins® QSK Engines
 - Stanadyne® FM100 Fuel System
 - Racor® Fuel Systems
- **Hydraulics** - Donaldson have the right filters, contamination control products and capabilities to protect machinery and components in hundreds of applications – in the factory and on heavy-duty equipment. When you need hydraulic filtration, turn to Donaldson.
 - Donaldson Filters
- **Lube** - Donaldson lube filters keep oil clean by capturing contaminants that can cause engine damage.
 - Donaldson Filters
 - Donaldson Blue®
- **Transmission** - Donaldson filters help keep your transmissions and equipment operating at peak performance.
 - Transmission

Power Generation

End-to-End Filtration Coverage

Donaldson has you covered – for every filter and air-oil separator your compressor requires.

○ Inlet Air Filter

Clean air out begins with clean air in. The inlet air filter prevents dirt and dust particles from entering the compressor & generators. This minimizes wear and tear on the airend, extendsairoil separator and lube filter life, and ensures cleaner compressed air to the plant or your mobile power tools and applications.

○ Lube Filter

Every speck of dust entering the compressor & generator will mix with the oil. The lube filter captures dirt and contaminants in the oil to protect the airend. Clean oil is essential to maintaining ideal performance of the compressor and reducing downtime.

○ Air-Oil Separator

Before the compressed air is released to the system, it passes through an air-oil separator to remove any remaining oil mist. Donaldson air-oil separators employ our unique coalescing media technology, developed to efficiently remove oil mist from the air with the lowest possible added restriction.

Agriculture

Donaldson is #1 in agriculture filtration with full engine and hydraulic coverage, dust control for grain operations and compressed air and gas filtration through-out the process.

- **Air Intake** - On-road or off, you can trust Donaldson air filters to withstand whatever the environment throws their way.
