

An overview

Tajmeel epitomizes leadership and innovation in aesthetic healthcare services especially in the field of Dentistry and Cosmetology blended with the routine healthcare treatment for all ages, embracing the values of VPS healthcare with its premium quality service, delivered in a warm and reassuring environment.

Tajmeel takes pride in continuing to raise the quality of service deliverables, responding to the challenging needs in the current changing healthcare landscape and the goal is to become the most trusted brand of choice in specialized medical and cosmetic services in the region.

Tajmeel centers are committed to provide the foremost quality of specialized premium services to its guests at its strategically located facilities to experience the most distinguished and flourishing clinical ambience handcrafted with latest technologies to ensure the optimum care and comfort to its guests.

Chairman's Message

Dear Patron,

In continuing our endeavor to bring the most advanced medical standards and technologies to patients in the UAE, it is with immense pleasure I introduce you to our latest brand, Tajmeel.

The United Arab Emirates is one of the most developed economies in the world. With a cosmopolitan mix of people coming from all parts of the globe, a culturally sensitive approach is paramount to deliver quality health-care.

Since our inception in 2007, we have expanded our portfolio in Clinical Care, Pharmaceuticals Manufacturing, Retail Pharmacy and other health-care services. Our mission as a responsible healthcare service provider has always been on providing high quality services to the people of the region. Today, with almost 24 hospitals and over 125 health centers spread across the Middle East, Europe, UK and India, we still strive hard to deliver the best of care and wellness to the people across the World.

Tajmeel is the most recent illustration of our commitment towards expanding the local capabilities in the UAE and throughout the region. Tajmeel, which means beauty in Arabic will offer a full range of cosmetic procedures in addition to dentistry, ophthalmology and oculoplastic procedures along with other specialized services that are tailor made to deliver the most premium healthcare services catering to the ever growing healthcare demands of the region.

Strategically located at Abu Dhabi, Dubai, Al Ain and Sharjah. Tajmeel houses the latest medical technologies, best trained physicians and other skilled and accredited professionals from across the World along with state-of-the-art amenities and world-class service standards.

Our patient centric approach and commitment towards the work we do have brought us a long way since 2007. Today we are on a global healthcare mission and we look forward to providing quality healthcare services and shaping a healthier future.

Dr. Shamsheer Vayalil

Chairman and Managing Director
VPS Healthcare

Mission.Vision.Goal

Our Mission

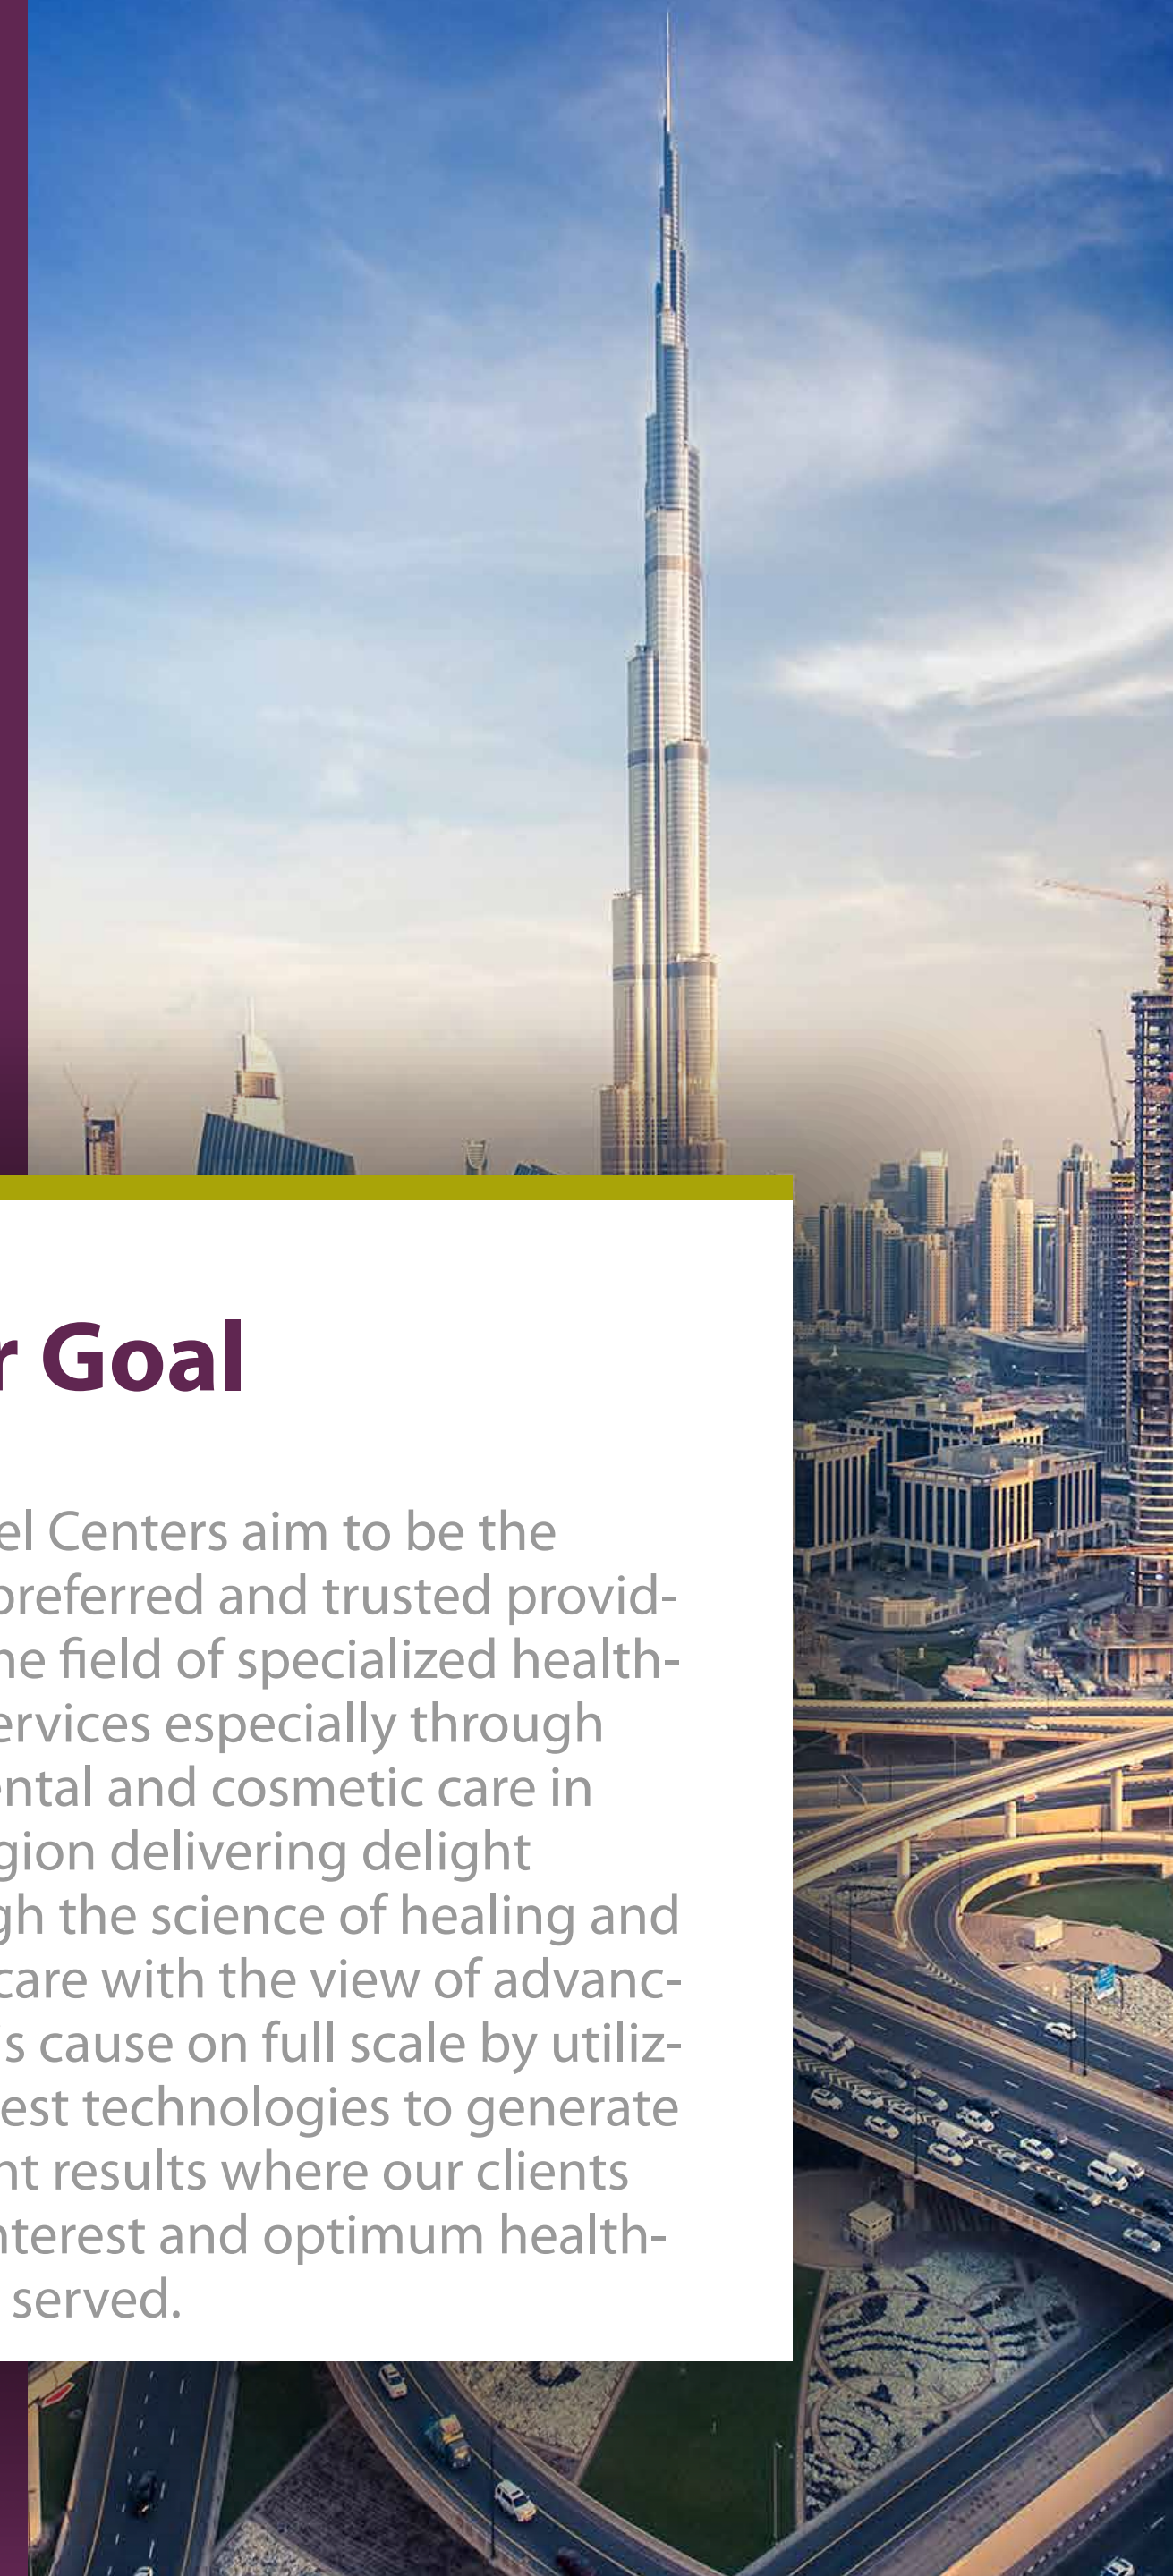

To reach out globally as a specialized healthcare brand delivering exemplary healthcare services using world class medical expertise and extensive technology contributing to the total patient delight.

Our Vision

To reform as a global brand of choice in the field of specialized Dental, Cosmetology and other healthcare services.

Our Goal

Tajmeel Centers aim to be the most preferred and trusted provider in the field of specialized healthcare services especially through the dental and cosmetic care in the region delivering delight through the science of healing and art of care with the view of advancing this cause on full scale by utilizing latest technologies to generate resilient results where our clients best interest and optimum healthcare is served.

General Medicine

Tajmeel provides dental care to people of all ages. At a routine visit to our general dentist, you will probably have a thorough examination of your mouth (including teeth, gums, and other structures), a professional cleaning, and a discussion about your dental (and overall) health. If your exam reveals the presence of tooth decay, you will probably also have a filling in the affected tooth.

Unlike specialists, who are mostly focused on a particular aspect of dental practice, Tajmeel's experts provide a wide array of services that are vital to your continued health, including:

- Preventive services
- Restorative Services
- Cosmetic Procedures
- Overall Health Concerns
